ALL-NEW SUBARU
WRX

Refined Exhilaration

Tech at your fingertips

Be the master of your own universe thanks to the tablet-like 11,6" infotainment touch screen with lightning-fast response and crystal clear, high-definition graphics. Tap into your contacts, send messages, bring up maps, select different driving modes, adjust the dual zone air-conditioning system and access compatible apps, news, music, podcasts and more. This advanced, multi-function infotainment control centre can be controlled with the mere power of your voice or the flick of a finger.

Subaru Driver Monitoring System

Subaru tackles driver distraction and fatigue with a newly introduced Driver Monitoring System (DMS) to the Subaru WRX.

Whether your journey is long or short, Subaru recognises that at times the driver may be distracted. Which is why DMS has been developed to offer another layer of safety, coupled with personalised driver convenience. Updated to incorporate new technology advancements, the Subaru WRX's DMS uses a camera to recognise when the driver's attention is waning or if they start to fall to sleep. An alert will then warn the driver, reminding them to refocus on the road ahead.

second pair of eyes

The fourth generation EyeSight® Driver Assist system, with enhanced functionality and all-new collision avoidance features, is standard on the new Subaru WRX tS model.

This world-renowned preventative safety system operates like an ever attentive second pair of eyes - to provide warnings, plus braking and steering intervention that is designed to help reduce driver burden, prevent accidents and save lives.

The EyeSight® Driver Assist system incorporates a host of primary functions - Pre-Collision Braking System, Pre-Collision Throttle Management, Adaptive Cruise Control, Lead Vehicle Start Alert, Lane Departure Warning, Lane Departure Prevention, Lane Sway Warning and Emergency Lane Keep Assist.

Enhanced features include Lane Departure Warning with vibrating steering wheel alerts if the vehicle is about to depart from its detected lane. Lane Centring Function works with Adaptive Cruise Control to provide steering assistance, accelerator and brake functions to maintain position in the detected lane. Autonomous Emergency Steering, using EyeSight® cameras and the rear radar system, assesses the presence of other vehicles before taking evasive automatic steering control.

Adaptive Cruise Control

Traffic doesn't always flow smoothly, so EyeSight® doesn't only keep a set speed. The system looks ahead and helps automatically adjust to keep your distance, even in stop-and-go highway traffic.

Pre-Collision Braking

A driver ahead unexpectedly hits the brakes or cuts you off. EyeSight warns you, applies the brakes and can even help you stop your Subaru.

Pre-Collision Throttle Management

If you put the car in Drive instead of Reverse and EyeSight® sees an object in your path, it cuts power to help you avoid accelerating into it.

Lane Departure and Sway Warning

You accidentally drift to the edge of your lane and begin to cross into another lane. EyeSight® watches for lane markers and chimes to warn you before you leave your lane.

The all-new Subaru WRX at a glance

Tuned to excitement

The new generation Symmetrical All-Wheel Drive Subaru WRX flawlessly blends seamless style and muscle car grunt. With the agility of a sports-inspired Sedan and intimidating engine power, available in the choice of a 6-speed manual transmission or Subaru Performance Transmission, the all-new Subaru WRX Sedan delivers a performance that's been skilfully honed. A healthy dose of Subaru WRX attitude pervades every detail, from the slick exterior lines to the motorsports-style cockpit features. Riding on the Subaru WRX philosophy that takes fun very seriously, the new generation All-Wheel Drive Subaru WRX boasts potent driving dynamics and the reassuring grip of Symmetrical All-Wheel Drive. Add spot-on, performance bred styling and you have a Sedan with the intensity, engineering, safety and responsiveness you've been waiting for.

Refined Exhilaration - Accelerated

The spine-tingling combination of the new 2.4-litre turbocharged Boxer engine and its menacing rumble, paired with the choice of the thrilling 6-speed manual transmission or Subaru Performance Transmission, which encompasses the Sport Lineartronic® gearbox, Variable Torque Distribution and Sports Shifting Control.

Both result in a 'hairs on the back of your neck' raising, pulse-racing, desire-inducing, drive worthy of the WRX name. The revolutionary Subaru Global Platform and iconic Symmetrical All-Wheel Drive, along with Subaru Intelligent Drive (SI-Drive) and Drive Mode Selection selected variants for superior handling and mind-blowing grip, deliver an unrivalled combination of poise, agility and control.
